St Barts Power Incident July 2023

Since last night, 100% of the homes in St.

Barthélemy have been restored with electricity. The solutions implemented to increase the power generation of the power plant and to limit consumption have allowed since July 11, 2023 at 21:00 to power the entire island: the five groups of the power plant produce a little more than 16 MW.

Saint Barthélemy Power Adapter

All power sockets in Saint Barthélemy provide a standard voltage of 220V with a standard frequency of 60Hz. You can use all your equipment in Saint Barthélemy if the outlet voltage in your own country is between 220V-240V. This is the case in most of Europe, Australia, the United Kingdom and most countries in Africa and Asia.
