solar farm. The 14,900 photovoltaic panels on the now-complete energy production facility generate enough electricity for nearly 3,500 homes while offsetting over 3,800 metric tons of carbon dioxide annually, already saving \$16 million for consumers. The solar farm is historic for St. Lucia as the first utility-scale

Saint Lucia Goes Solar

A diversified portfolio of solar, wind and diesel was considered optimal in helping Saint Lucia reach its goal of 35 per cent renewable energy penetration by 2020. Such collaboration between a utility company and government is unusual in the region, and another way in which Saint Lucia is spearheading change.

About Us - Sol Lucian

Sol-Lucian is a Saint Lucia based Electric Solar Renewable Energy company that has developed a bold approach to reducing the cost of electric utility, through the provision of products and services that include installations of GRID-TIED and STAND-ALONE photovoltaic (PV) systems.

The Ultimate Guide to Solar PV Systems

The Ultimate Guide to Solar PV Systems. In the sun-soaked landscapes of St. Lucia and the Caribbean, a brighter, more sustainable energy future is dawning. With Ecocarib, your trusted partner in renewable energy solutions, we're here to illuminate the path to clean, reliable power through solar photovoltaic (PV) systems.
