# Saint Pierre and Miquelon bess scheme

## Overview

---

What is the €100 million Bess scheme?

The €100 million (US\$106 million) allocation is part of a €416 million package for PV co-located battery energy storage system (BESS) technology that was initially to total €41.6 million a year, starting in 2025, for ten years. The 2025 programme is set to open on 1 January 2025, and more details will be released to the House later this year.

## First community BESS installed as part of 'Power Melbourne'

The newly installed battery system has a capacity of 450kW/1.1MWh with the council targeting 5MW of similar assets. Community batteries are BESS resources connected to the electricity network at distribution level, and the idea is that it helps communities share the benefits of locally deployed rooftop solar PV while easing congestion on their local grid.
