FTC Solar Announces Reverse Stock Split , Industry Today Seychelles

Founded in 2017 by a group of renewable energy industry veterans, FTC Solar is a leading provider of solar tracker systems, technology, software, and engineering services. Solar trackers significantly increase energy production at solar power installations by dynamically optimizing solar panel orientation to the sun.

Imminent increase in tariffs of utilities FTC expresses concern

The FTC, being the custodian of the Fair Trading Act 2009 with the mandate to "safeguard the interests of consumers", is of the opinion that this increase in tariffs will be an additional constraint on the household budgets and have an adverse impact on the cost of living.

Having gathered a wealth of experience over the years, in January 2023, she was promoted as the Principal Analyst in the Department. In June

2023, Mrs Poussou was appointed as the Deputy Chief Executive Officer. Mrs. Poussou assists the CEO in the administration of the FTC and is also the Head of Operations.

Seychelles Energy Situation

Energy Imports Net (% of energy use): It is estimated as energy use less production, both measured in oil equivalents. A negative value indicates that the country is a net exporter. Energy use refers to use of primary energy before transformation to other end-use fuels, which is equal to indigenous production plus imports and stock changes, minus exports and fuels supplied to ...
