

European Solar and Energy Storage Solutions

Singapore ateps nederland bv

Overview

Who is ateps Nederland BV?

Gennevilliers, France (October 04, 2021) – Exide Technologies () announces today the acquisition of ATEPS Nederland BV. ATEPS develops, builds and delivers energy storage systems (ESS) to transition from fossil energy over to renewables.

What happened to ateps Nederland?

October 7, 2021: ATEPS Nederland this week announced that it had been acquired by Exide Technologies, the European arm of the former US battery giant, on October 1, 2021. ATEPS, founded in 2014, is a developer and manufacturer of modular energy storage systems. “We continue under the name ATEPS but as an Exide Technologies company,” the firm said.

Who is ateps?

ATEPS is an innovative and dynamic provider of lithium-ion based energy storage and its management in future key applications such as time shift, frequency control, peak shaving, energy trading and more.

Is ateps still a company?

“We continue under the name ATEPS but as an Exide Technologies company,” the firm said. “Our customer base has grown significantly in recent years and we have experienced enormous growth. By being part of a global leader like Exide, we have access to their resources, sales skills and distribution.

What makes ateps a successful & sustainable company?

Jos Theuns CTO of ATEPS adds: "Our focus for a successful and sustainable future is on storage systems and solutions for greenhouse gas reduction and an optimization of TCO in energy-intensive industries. Being part of a global leader such as Exide will bring our products & services to a new level." About Exide Technologies:
