

## European Solar and Energy Storage Solutions

# Sisteme fotovoltaice Turks and Caicos Islands

## Overview

---

How many rooftop solar PV systems will be installed in Turks & Caicos?

The contract outlines the installation of five rooftop solar PV systems, with battery energy storage and accessories at the following critical public facilities: These rooftop solar PV systems are specially designed for resilience to withstand fierce climatic conditions in the Turks and Caicos Islands.

Where can solar power be installed in Turks & Caicos?

Solar-derived power is increasing in popularity, with many private installations visible throughout the country, especially on new Turks and Caicos villa projects. Several local companies specialize in both supply and installation of alternative energy systems. The FortisTCl electricity plant on Providenciales.

Can Turks and Caicos use solar power?

The Turks and Caicos Government and Fortis TCl are currently reviewing the electricity legislation to enable Turks and Caicos residents to use the solar power they produce to offset their power consumption (rather than sell everything back to Fortis at their pre-agreed rate).

What solar products does Fortis TCl offer?

We specialize in the following solar products: solar hot water, solar pool heating, solar pool pumps and solar photovoltaic. Fortis TCl is the main power utility in the Turks and Caicos Islands. It is a privately owned company and services all of the inhabited islands within the Turks and Caicos Island chain.

Will Fortis TCl install a solar array in North Caicos?

Fortis TCl announced in 2017 that 1 MW of solar capacity is scheduled to be installed in the islands via the utility company, which would include a 700 kW array on North Caicos and 300 kW throughout the other islands. These projects are ongoing. There are two approaches for persons wishing to install a solar array at their residence or business:.

What is transforming to green energy in the Turks and Caicos Islands?

The “Transitioning towards Green Energy in the Turks and Caicos Islands” project falls within the development activities of the RESEMBID programme, which is 47-project programme funded by the European Union and implemented by Expertise France - the development cooperation agency of the Government of France.

Green Revolution Ltd provides solar energy saving solutions and advice to the Turks and Caicos Islands, Bahamas, and Caribbean region. We specialize in renewable solar energy and cutting edge solutions that save our clients money
