Grid Modernization Program

Smart grid technologies promote the modernization of the electric grid, including the use of renewable and distributed energy resources, fewer greenhouse gas emissions, and lower operating costs. With a smart grid, New Yorkers will have access to a more affordable electricity and a more resilient and reliable energy system.

Strategic Smart Grid Vision and Technical Plan Report

o Smart Grid Investment Grant Program (SGIG) -- DE-FOA-0000058. o Smart Grid Demonstration Program (SGDP) - DE-FOA-0000036. Successfully leveraging federal funds to accelerate the development of the NYS smart grid requires an evaluation of New York's Technical Smart Grid Plan to find synergies with the DOE stimulus grants.

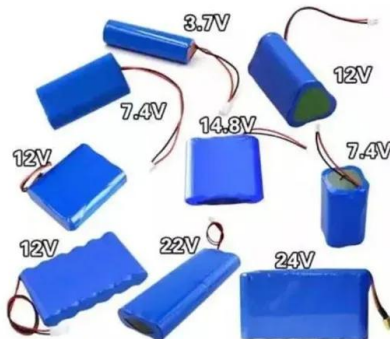

New York announces \$11m in funding for solving grid challenges

New York's Governor Hochul announced the availability of \$11 million in funding through the fourth round of the Future Grid Challenge for projects that identify solutions to the technical challenges of integrating a changing energy resource mix into the electric grid.
