Solar Photovoltaic Bracket Packaging Solution

Overview

Why should you choose pvpallet?

PVpallet helps solar companies reduce waste, streamline operations, and save money through reusable packaging and turnkey logistics solutions. Why choose PVpallet?

We're focused on making life easier for everyone in the solar supply chain—from manufacturers and distributors to EPCs and solar installers.

Will pvpallet revolutionize the way we ship solar panels?

At least that's our approach. PVpallet is the first solar shipping solution to revolutionize the way solar modules are handled and distributed.

Why do solar companies need reusable packaging & turnkey logistics services?

Solar companies can reduce waste, streamline operations, and save money through our reusable packaging and turnkey logistics solutions. We offer robust options like BOS bulk bins and solar module pallets, as well as packaging consulting and turnkey logistics services. Our goal is to provide win-win solutions that benefit both people and the planet.

What is PVpallet?

PVpallet is a reusable packaging and shipping solution that assists in driving efficiencies and process improvement at the branch and warehouse level and significantly reduces waste and damage. -Kevin Leikin, Director of Supply Chain Operations at Sunrun. Our mission is to eliminate waste streams through innovative, reusable packaging and shipping solutions.

What services does PVpallet offer?

PVpallet offers turnkey logistics, tracking, cleaning, and refurbishment services. These ensure that your reusable packaging fleet is traceable and in

top condition, ready for deployment. PVpallet assists in driving efficiencies and process improvement at the branch and warehouse level, while significantly reducing waste and damage.

What is the PVpallet Series X?

The PVpallet Series X allows for easier and safer deployment and decommissioning of solar microgrid systems. It also enables the acceptance and management of solar panel donations in a way that wasn't possible before. The fact that these units can be stacked two-high outside significantly increases storage capacity.
