

European Solar and Energy Storage Solutions

Solar Support Professional English

Overview

Who is solar support?

Solar Support is the specialty engineering solutions firm boldly leading the industry through the next generation of restoration and recovery solutions for aging PV assets. Our community of solar experts are a solutions incubator for some of the most difficult and risky industry-leading projects.

Why should you work with solar support?

By working with us, we are uplifting the renewable industry together. Solar Support is the specialty engineering solutions firm boldly leading the industry through the next generation of restoration and recovery solutions for aging PV assets.

What is the solar training network?

Project Summary: The Solar Foundation is administering the Solar Training Network, which connects solar workforce trainers, solar employers, and individuals interested in working in the solar industry. This project leverages the experience and expertise of its team members to develop and expand training and workforce capacity building nationwide.

Is solar support completing a 1 MW DC expansion?

Solar Support has completed a 1 MW dc expansion of Longroad Energy's 11 MW dc Lea solar project in Lea, New Mexico. "We commend the Solar Support team on the successful completion of a challenging project, said Meghan Semiao (McIver), Director, Asset Management, at Longroad Energy.

How will step help America's solar workforce?

STEP will help to advance America's solar workforce by providing innovative training programs that will help to meet President Obama's goal to train 75,000 in solar energy by 2020. These jobs will help increase solar adoption and improve solar installation times by educating the ecosystem of

professionals, not just the solar installer.

What is the Solar Foundation?

Project Summary: The Solar Foundation is the new national administrator for the Solar Ready Vets® program. This project takes an innovative approach to providing transitioning veterans with promising civilian career paths in solar energy while also providing the solar industry with highly qualified and motivated workers.
