# **Solar battery storage for home Saint Helena**

## Overview

---

What is a solar battery storage system with backup?

From rolling blackouts to lightning storms to simply spending more time at home, a solar battery storage system with backup gives you the power to decide how your stored solar electricity is used, so yours can be the house on the block where the lights shine bright and the electricity bills drop. Tesla Powerwall 3.

Can a solar battery save you money?

When paired with your SunPower Equinox system, a solar battery can help boost your electricity bill savings more than just solar panels alone. Even as grid electricity rates rise, you can enjoy long-lasting peace of mind knowing you've made the smart choice for your home—and your wallet.

Why should you use a solar battery system?

Oftentimes, utility companies will charge more for electricity when demand is high. With a solar battery system, you can store your own clean, solar energy and use it to power your home when utility rates are usually at their most expensive, helping you save money on your electric bill.

Are solar batteries a good investment?

Solar batteries benefit homeowners by enabling you to store your excess energy rather than sending it back to the grid, allowing you to use it later to maximize the value of that energy. What is included in the SunPower® SunVault® Storage System?
