Team_alt_2

Hank is the managing director of Solar Dynamics, focusing on business and administrative issues, business development, and oversees consulting activities. With over 35 years working in CSP at Luz, NREL, Abengoa Solar, and Solar Dynamics, he has extensive operational, analytical, R& D, and commercial experience with CSP technologies.

Tides, Rotation, and Shape (Chapter 4)

Since this is evidently not the case for real bodies, we must now consider the effects of the application of universal gravitation to the matter that forms the bodies of the solar system. A tide is raised on one body by another because of the effect of the gravitational gradient or the variation of the gravitational force across the body.

About Us

Solar Dynamics was established in 2003 and started life as a small solar supplier and installer in Sussex . We have remained in this now thriving industry concentrating on the two major technologies Solar PV & Battery storage. As the company has grown we now offer an extensive

commercial & residential product line backed up by a fleet of in
