Solar for my house Aruba

Solar for my house Aruba

About

We have installed over 10,000 solar panels in Aruba since Mister Green was founded in 2016. Mister Green will help you choose which products are best for you. Now and in the future. Home; because time is a crucial factor. The faster we have your solar panels up and running and connected to the Elmar grid, the sooner you will start saving money.

About

We have installed over 10,000 solar panels in Aruba since Mister Green was founded in 2016. We are proud to be the only company in Aruba that is fully focused on our customers keeping these two things in mind: How can you start saving money as soon as possible? How can we make the transition to sustainable energy, as easy as possible?

All Electric Homeowners: How much electricity do you consume?

The house uses about 25 kilowatt hours of electricity per day. The electric water heater heat pump uses at least an additional 15 kilowatt hours by itself-. Every time my wife plugs in her electric car in it's at least 40 kilowatt hours. Before we got solar, everything in the house ran on natural gas.

Better Solar Aruba , Solar System Green Energy Aruba

Better Solar Aruba delivers affordable solar solutions for your home and business. Our motto is: Free energy for Aruba. We can provide and install a complete solar solution or you can choose from our Cash & Carry packages.

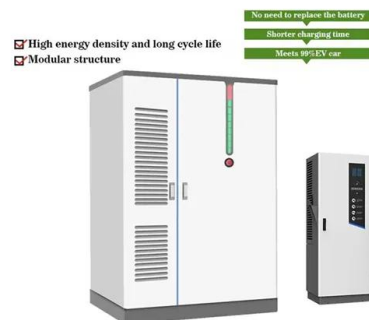

Questions

Mister Green is 100% focused on solar panel systems. How do solar panels work? Solar panels are made up of photovoltaic (PV) cells which convert sunlight into direct current (DC) electricity, during the day. The electricity is fed to an inverter which converts the electricity into grid-compatible AC power, (which is what is used in your home).
