The authorities in the Ivory Coast have completed a 37.5 MW solar plant, with a second development phase now underway to increase its capacity to 80 MW.

The government of the Ivory Coast has signed a concession agreement with infrastructure investor PFO Africa for a 52 MW solar PV plant in the village of Sokhoro, in the northern part of the.

Abidjan, Ivory Coast, is a highly suitable location for solar photovoltaic (PV) power generation due to its relatively consistent average daily energy production per kW of installed solar across all seasons. In this city, the average kWh per day per kW of installed solar is 4.79 in Summer, 5.36 in Autumn, 5.25 in Winter, and 5.53 in Spring.

SEPA SEIA How much solar power does Ivory Coast have?

Coulibaly said the Ivory Coast’s installed solar capacity currently stands at 2,907 MW. The country is now working toward deployment targets of 3,500 MW in 2025, 5,200 MW by 2030 and 8,600 by 2040. Ivory Coast’s first solar power plant, located in the northern town of Boundiali, was commissioned in 2022.

When will Ivory Coast's solar power plants be built?

The minister said that contracts are currently under review for the construction of other solar power plants, with a cumulative capacity of 600 MW. Commissioning of these projects will take place in 2025 and 2026. Coulibaly said the Ivory Coast's installed solar capacity currently stands at 2,907 MW.

How many solar plants will Ivory Coast have by 2040?

Mamadou Sangafowa Coulibaly, the Ivory Coast's Minister of Mines, Oil and Energy, has announced plans to install 678 MW of solar capacity by 2030 and 1,686 MW by 2040. According to the government's website, there are plans for 12 new solar plants with a combined capacity of 628 MWp.

Will IPPs build solar power plants in Ivory Coast?

The selected IPPs will build solar power plants capable of delivering 60 MWp to the national grid in Ivory Coast. The solar plants are being built under the "Scaling Solar" program, an IFC initiative to leverage public-private partnerships (PPPs) for the rapid construction of solar power plants in developing countries, particularly in Africa.

Which companies are developing solar power plants in Ivory Coast?

The Egyptian company Elsewedy Electric is also among the potential developers of the Laboa and Touba solar plants. The same goes for Infinity Power Holding and Nareva Holding, the subsidiary of the Moroccan group Al Mada. The selected IPPs will build solar power plants capable of delivering 60 MWp to the national grid in Ivory Coast.

How much does the Ivory Coast electricity project cost?

The project, which has a total cost of €75.6 million (\$81.8 million), is expected to power 70,000 homes, saving 60,000 tons of CO2 equivalent per year. It is creating more than 300 direct and indirect jobs during construction. The project is part of efforts to diversify electricity production in the Ivory Coast.
