Study: Solar Panels Reduce Nearby Property Values

"Our results suggest that solar installations negatively affect nearby property values...property values in the treatment group decline 1.7% (or \$5,751) relative to the control group." At the end of the day, solar panels require a lot of land. The study found that it requires about 5 acres of land for each MW of capacity, and that the

Solar power: the future of airport infrastructure

In what was said to be a "first-of-its-kind project", work was completed on the installation of 11,835 solar panels in 2015. The panels, placed on the roof of car parking structures, amounted to 3MW capacity, providing around 20% of the energy needed two-terminal site and saving in the region of \$14m over 30 years. The project included the
