Solar photovoltaic panel warranty period

Overview

Solar panels and microinverters are typically covered under the product warranty for up to 25 years. Central inverters are typically covered for up to 10 years.

Solar panels and microinverters are typically covered under the product warranty for up to 25 years. Central inverters are typically covered for up to 10 years.

Solar panel warranties vary depending on the manufacturer, but in the solar industry, a 10-year product warranty and a 25-year performance warranty are typically considered the minimum standard.

In general, solar panel manufacturers must provide a minimum 10-year product warranty period; however, a growing number of premium manufacturers now offer 15, 20, and even 25-year product warranties.

Solar panel warranties vary by manufacturer and type of panel. A standard solar panel warranty should come with at least 10 years of protection. Which solar panels have a 25-year warranty?

SunPower has the best solar panel warranties, with a 25-year product warranty and a power performance guarantee of 92% after 25 years. However, Panasonic also offers some of the best solar panel warranties in the PV industry, with a power performance guarantee of 90.8% after 25 years. What Solar Panels Have a 25-year Warranty?

.

How long is a solar panel warranty?

The length of a solar panel warranty varies depending on the manufacturer, but a 10-year product warranty and a 25-year performance warranty are considered a bare minimum in the solar industry. Some manufacturers offer a 25-year product warranty and a 30-year performance warranty. How long should solar panels last?

What is a performance warranty on a solar panel?

A performance warranty guarantees a maximum level of degradation – typically between .25% and .75% – per year so that in 25 years the panel will still have 80-90% of the power output it did in its first year. Performance warranties are important for sizing solar systems to maintain 100% offset for 25 years.

What types of warranties cover solar panels?

There are two basic types of warranties that cover solar panels. A product warranty protects you from defects in a solar panel stemming from material quality or manufacturing errors. This is also referred to as an equipment or materials warranty.

Why are solar panel warranties important?

Solar panel warranties are important to make sure you get the expected electricity savings over time. For example, if your solar energy system is expected to save at least \$1,200 per year, a 25-year warranty means you get \$30,000 in guaranteed savings. Solar panel warranties also help you qualify for favorable loan conditions.

Do solar companies offer warranties?

Solar companies offer warranties for their solar panels and related equipment since consumers want assurances and guarantees on such a large purchase. However, most solar warranties can be a little confusing for the average person to understand, as they contain complicated technical and legal jargon.
