

European Solar and Energy Storage Solutions

Solar planet company Serbia

Overview

What is the biggest industrial solar power plant in Serbia?

The biggest Industrial Rooftop Solar Power Plant in Serbia. The largest Industrial Solar Power Plant for self-consumption in Šabac. The first industrial solar power plant for energy management system and protection of the production process Power supply within the capital project of the gas pipeline that goes through Serbia.

Is Serbia a good market for solar energy?

In conclusion, Serbia is still a very young but promising market in the solar energy sector, with some fast-growing solar distributors. Many top solar distributors, solar panel manufacturers and suppliers are in partnership with European companies.

Why is solar energy becoming an attractive prospect in Serbia?

There are several reasons why solar energy is becoming an attractive prospect in Serbia, and we'll be looking at some of them. Solar solutions or projects appeal massively in Serbia because they're durable. According to research, the average lifespan of a solar panel is 20-25 years, while that of the battery and inverter is a decade.

Will Serbia offer solar incentives to power production companies?

The Serbian government announced that it would offer power production firms solar incentives to encourage and promote rooftop solar installations in the country. The government also announced that the companies selected for this benefit would be determined through the auctions.

How does the Solar System affect the environment in Serbia?

Unlike fossil fuels, the major electricity source in Serbia, the solar system has no impact on the environment. Fossil fuel consumption emits carbon dioxide, which is a greenhouse gas, into the environment. This emission traps heat in

the atmosphere and causes global warming. It doesn't end there.

Who is PFM solar?

It was founded in 2010. The company started as an importer and distributor of solar equipment. However, in more recent years, it has evolved into a manufacturer that specializes in the production of PFM solar collectors. The company is also a leading installer in Serbia.
