Solar scheme 2024 Mexico

Overview

How much solar power does Mexico need in 2024?

To meet the 35% clean energy target in 2024, Mexico needs at least 128.83 TWh or 42.56 TWh of additional clean energy generation. National solar PV capacity potential is estimated at 24,918 GW.¹ This potential capacity could generate 50,196 TWh/yr or 137 times the 365 TWh estimated demand for Mexico in 2024.

How much wind power will Mexico generate in 2024?

National wind capacity potential is estimated at 3,669 GW¹. This potential capacity could generate 5,759 TWh/yr or 15 times the 365TWh estimated demand for Mexico in 2024. NREL Renewable Energy Data Explorer.

Is Mexico ready for a 'distributed generation' solar project?

The relative success of the smaller “distributed generation” projects are a sign of Mexico’s huge untapped potential in solar. A 2020 World Bank report estimated that the country would need to dedicate only 0.1 per cent of its territory to utility-scale photovoltaic power plants to cover its entire yearly electricity consumption.

Are solar panels a sign of Mexico's untapped potential?

Panels on the roofs of small businesses and homes that produce less than 0.5MW have grown more than fourfold since 2018 and are now about 4 per cent of total electricity generation capacity. The relative success of the smaller “distributed generation” projects are a sign of Mexico’s huge untapped potential in solar.

Could Mexico attract US\$17 billion of direct investment?

Mexico could attract US\$17 billion of direct investment under the highest accumulated renewable scenario. The impacts of greater renewable energy penetrations vary geographically and depend on the assumptions made when

defining the new installed generation capacity for each scenario.

Could renewables be a 'cost-effective' way to provide rural electrification in Mexico?

According to NREL's study, deploying renewables in Mexico at scale is the most cost-effective way to provide rural electrification. This would create new high-quality jobs and enhance education, health, and other social services that improve quality of life.
