

## European Solar and Energy Storage Solutions

# Solar support equipment quotation

## Overview

---

Is Solar Quotes a good quoting service?

The quoting service from Solar Quotes was handled highly professionally and most helpfully by the companies consulted. The sales staff were top notch in both cases. The final decision came back to one of price, with little difference between them.

What equipment do I need to go solar?

We'll break down everything you need to know about solar equipment to prepare you. You need solar panels, inverters, racking equipment, and performance monitoring equipment to go solar. You also might want an energy storage system (aka solar battery), especially if you live in an area that doesn't have net metering.

Why is solar a competitive bidding platform?

In general, Solar.com can be referred to as a competitive bidding platform because at the end of the day what we do is connect customers to providers through a bidding process to minimize costs for the customer and maximize the quality of their solar project.
