What does a solar service provider do?

Our work involves the design, sizing, installation and maintenance of solar on and off-grid systems and solar backup power systems. We are a service provider poised to meet you at your point of need. Our work involves the design, sizing, installation and maintenance of solar on and off-grid systems and solar backup power systems.

Do you install quality solar equipment?

We only install quality equipment. We use reputable brands, from solar inverters to panels and batteries. We know good equipment means good guarantee periods so we try and take advantage of this for our customers' benefit. Our mission is to increase awareness and adoption of solar energy.

Why should I hire a professional for my solar system?

Hence it is of utmost importance to have your proposed solar system designed and sized by a qualified professional. As a company, we have successfully

completed close to a thousand installations over nine years with each project different in size and scope. We have done both commercial and home installations, on and off-grid setups.
