Solomon Islands: Solar Power Development Project

The Asian Development Bank is working with the Government of Solomon Islands and Solomon Power to convert electricity networks in five provinces almost entirely to solar power. The project will reduce the need for costly shipments of diesel to the provincial centers. ADB Approves \$15.2 Million Solar Project for Solomon Islands.

EverGreen Solar: Solar Panel Installers in the UK

At Evergreen Solar, we offer a comprehensive suite of services designed to empower you with clean, sustainable energy solutions. From solar panel installations to cutting-edge battery storage and electric vehicle (EV) charging installations.

Solar Installation

Solomon Power also supports the installation of small scale grid connected micro embedded generators that convert renewable energy into electricity that can be used in your home or business premises. Sources of renewable energy can include solar photovoltaic cells (PV) or micro-turbine systems.

UK supports establishment of an independent energy regulator

UNITED Kingdom (UK) in partnership with the Ministry of Mines, Energy and Rural Electrification has launched a technical assistance facility to support Solomon Islands to establish an independent energy regulator.
