Solomon Islands solar generator for fridge

Overview

How long do solar panels last in Solomon Islands?

The majority of solar energy systems installed in Solomon Islands last less than 2 years due to bad system design and poor user training. Superfly's systems are designed to last a minimum of 5 years (for basic systems) and 10 years for premium systems.

How many solar homes are there in the Solomon Islands?

“Solomon Islands currently has one of the lowest levels of access to electricity in the region, with over 85% of the population of Solomon Islands still without access to electricity and for this project alone, we received over 6,000 applications to obtain only 2,000 solar home systems,” said Mr Aimaea.

Who is Deputy Director of the Solomon Islands Energy Department?

Deputy Director for the Solomon Islands Energy Department, Mr Gabriel Aimaea noted the significance of the project to Solomon Islands and expressed appreciation and gratitude of the region to the Government and people of Japan for the provision of the PEC Fund.

DIY power for a fridge in Solomon Islands

I have a 60 litre 12V Trailblaza compressor fridge I will be sending to someone in the Solomon Islands. I wish to also send a power solution as well. The location is elevated and so catches a fair bit of wind. A combined wind & solar system would seem to be best. All sensitive electronics would need to have their own weather housing.
