Hevel Expands Solar Cell, Module Production Facility to 340 MW

Hevel Group has expanded its heterojunction solar cells and modules production plant to 340 MW of capacity from the earlier 260 MW. Hevel Expands Solar Cell, Module Production Facility to 340 MW. By Manu Tayal / Updated On Tue, Solis Launches New Hybrid Inverter in South Africa. India To Become World's Second-Largest IIT Roorkee

The top 10 solar companies in South Africa in 2024

Sunworx Solar is one of South Africa's leading suppliers of alternative green energy for homes and commercial step-ups. The company is renowned for its credible warranties that include solar panels (25-year warranty), solar plant mounting structure (20-year warranty) and solar inverters (5-year warranty).

Solar energy for households, businesses and utilities ...

Hevel Group implements turnkey projects of any complexity, tailored to various customer needs. In the past 10 years Hevel Group has commissioned over 100 projects with a total capacity of more than 1 600 MW

Hevel CEO moves to Unigreen as company looks to ramp up HJT solar ...

The CEO of Hevel Group, Igor Shakhrai, will leave the company to become CEO of Unigreen Energy, a silicon wafer and cell manufacturer, which is owned by Hevel majority shareholder Ream Management LLC

Bridging the Building Integrated Photovoltaic (BIPV) Gap

Vasily Shikin, the head of export sales for Hevel Solar, says that the long, snowy winters in parts of Russia and CIS countries can be advantageous for BIPV. "In Russia, in some regions with the snow loads, BIPV is actually more efficient than rooftop PV - because there is difficulty to have access to the roof and clear the snow," says

Unigreen Energy Expects New Projects in S. Africa After ...

Unigreen Energy plans to launch its solar farm in South Africa in the first quarter of 2025 and expects new projects in the country, company CEO Igor Shakhrai said at the Russia-Africa summit. "We will launch this [115-MW ...

Adams solar plant, South Africa

The solar park is located in the Northern Cape province, a vast and sparsely populated area of South Africa. The plant, which uses thin-film solar modules, is located on the R380 road that connects the towns of Hotazel and Kathu.

South Africa's Solar Industry Positive on Growth

3 ???· 2024 was marked by steady growth, notable achievements, and key lessons, and according to SAPVIA, the year has set the stage for a brighter, greener future.. Growth Milestones 2024. By October this year, South Africa had added 961 MW of private-sector solar PV capacity, while the country's total solar PV capacity surged to 8.97 GW, an 11.9% increase compared to ...

South Africa's Solar Growth: Milestones and 2025 Vision

2 ???· As 2024 concludes, the South African Photovoltaic Industry Association (SAPVIA) celebrates a year of steady growth, marked by major milestones and bold plans for the future. With nearly 961MW of new private-sector solar PV capacity added this year, South Africa's solar journey is lighting the way toward a more sustainable energy future. Solar Growth Milestones [...]

Unigreen Energy Expects New Projects in S. Africa After Launching Solar ...

Unigreen Energy plans to launch its solar farm in South Africa in the first quarter of 2025 and expects new projects in the country, company CEO Igor Shakhrai said at the Russia-Africa summit. "We will launch this [115-MW solar] farm next year, in the first quarter. We hope that we will also have other projects in South Africa," Shakhrai said.

Hevel Solar's CEO Igor Shakhrai discusses heterojunction strategy

As part of PV-Tech's focus to understand the status of heterojunction (HJT) solar cell production, investments and field performance, PV Tech recently caught up with the CEO of Hevel Solar,

South Africa's Solar Market Outlook: A Bright Future for ...

South Africa has abundant solar resources, making it a prime location for the development of solar energy projects. The country has set a target of generating 18 GW of renewable energy by 2030, with solar energy expected to make up a significant portion of this target. The government's Renewable Energy Independent Power Producer Procurement ...

South Africa's Solar Growth: Milestones and 2025 Vision

2 ???· As 2024 concludes, the South African Photovoltaic Industry Association (SAPVIA) celebrates a year of steady growth, marked by major milestones and bold plans for the future. ...

Hevel Group and Green Energy Put into Operation 15 MW Solar ...

EPC-contractor and solar module manufacturer Hevel Group completed construction on the 15 MW solar project in the southern Russian region Astrakhan. PV power plant was developed and financed by Green Energy, renewable energy project developer with 480 MW pipeline.

South Africa's solar industry powers forward to 2025

2 ???· By October this year, South Africa added 961MW of private-sector solar PV capacity, a testament to the sector's resilience despite challenges. The country's total solar PV capacity surged to 8

Solar energy for households, businesses and utilities Hevel ...

Hevel Group implements turnkey projects of any complexity, tailored to various customer needs. In the past 10 years Hevel Group has commissioned over 100 projects with a total

capacity of more than 1 600 MW

Unigreen Energy expects new projects in S. Africa after launching ...

July 31 (Interfax) - Unigreen Energy plans to launch its solar farm in South Africa in the first quarter of 2025 and expects new projects in the country, company CEO Igor Shakhrai said at ...

Hevel Solar

The 25 MW Solar Power Plant has been commissioned at a cost of RUB 2.75 billion, and 70 percent of solar PV components used were manufactured in Russia. Hevel Solar, a joint venture between Russian industrial conglomerate Renova Group and nanotechnologies provider JSC Rusnano has commissioned a 25MW solar power plant in Sol-Ilets, a town [...]

Unigreen Energy expects new projects in S. Africa after launching solar ...

July 31 (Interfax) - Unigreen Energy plans to launch its solar farm in South Africa in the first quarter of 2025 and expects new projects in the country, company CEO Igor Shakhrai said at the

Russia-Africa summit.

South Africa's solar industry powers forward to 2025

2 ???· By October this year, South Africa added 961MW of private-sector solar PV capacity, a testament to the sector's resilience despite challenges. The country's total solar PV capacity

Solar Power Solutions , SolarEdge South Africa

SolarEdge Expands Accessibility and Footprint in South Africa and the region with ARB Partnership to Drive Sustainable Energy Innovations . Read More . Media Coverage. SolarEdge: Power your home, the smart way . Read More . Media Coverage. Mar 18 - 20, 2024. As more companies integrate solar energy systems to meet their power needs, it is

Nura Solar Power Plant (Nura SPP) (Kazakhstan)

The company's project pipeline in Kazakhstan includes Sarybulak SPP (4.95 MW), Kapshagai SPP (3 MW), Kushata SPP (10 MW) and Shoktas SPP (50 MW), which were acquired in 2019, as well as a solar power plants in Kentau and

Shymkent with a total capacity of 70 MW, which were awarded to Hevel in 2018 as a result of the solar auction. The Hevel

South African Photovoltaic Industry Association (SAPVIA)

4 ???· SOUTH AFRICAN SOLAR PHOTOVOLTAIC SPOTLIGHT. More than 500 million people living in Africa currently have no access to electricity, but this could be about to change. In recent years, there has been an exponential increase in the installation of solar photovoltaic (PV) technology by homeowners, businesses, government, and industry in South

About Hevel Group

Hevel manufactures high efficiency PV cells and modules based on one of the most advanced PV technologies in the world. Heterojunction technology ensures consistent product performance, guaranteeing outstanding product quality. Hevel products are certified with the international standard by TUV.
