South Georgia and South Sandwich Islands topray solar

Overview

South Georgia and the South Sandwich Islands are a collection of islands in the South Atlantic Ocean. Most of the islands, rising steeply from the sea, are rugged and mountainous. At higher elevations, the islands are permanently covered with ice and snow. The South Georgia Group lies about 1,390 kilometres (860 mi; 750 nmi) east-

of the tip of South America. The islands were first sighted in 1775 by James Cook and named after King George III. The islands were first visited by humans in 1807 when the British ship *Endeavour* was wrecked on the island of Gable. The islands were first visited by humans in 2001 by a group of 10 people.
