South Sudan kevin power solution

Overview

Can South Sudan generate electricity from hydropower?

South Sudan holds the potential to generate over 2,500 MW of electricity from hydropower, mostly in its equatorial region. Fula, Shukoli, Lakki, and Bedden are among the largest project sites that have been identified on the Nile River with the potential to be developed and are estimated to generate 2,927 MW of power.

Why are South Sudan's unelected leaders thwarting efforts to democratise?

“Since independence in 2011, South Sudan’s unelected leaders have continued to entrench impunity for systematic and gross human rights violations, fuel insecurity, and deliberately thwart efforts to democratise the country,” said Yasmin Sooka, Chair of the Commission.

Is South Sudan facing a maelstrom of interlinked crises?

Commissioner Barney Afako observed that, “South Sudan faces a maelstrom of interlinked crises. Damage to one of the oil export pipelines, linked to war in Sudan, has significantly reduced national revenue at a time when South Sudan hosts hundreds of thousands of newly displaced persons, including Sudanese refugees.

Is the conflict in Sudan overshadowed by conflict in Ukraine & Gaza?

However, the conflict in Sudan, which is already a regional crisis involving neighbors such as Chad, the Central African Republic, South Sudan, Egypt, Libya, and Ethiopia, has largely been overshadowed by the conflicts in Ukraine and Gaza.

South Sudan kevin power solution

How Sudan's Wars of Succession Shape the Current Conflict

Eight years after South Sudan voted to become an independent nation, dividing what had been Africa's largest country by landmass, the emergence of this slogan as one of the principal battle cries of the demonstrations signaled that the secession of the South had not solved the identity question in Sudan.
