Starry Sky Photovoltaic Panel

Overview

Why should you buy fiber optic star ceiling panels?

Our CineStarPanel™ fiber optic star ceiling panels offer a realistic starry night sky that will wow you and your guests. Each star panel is also an acoustic panel, so they improve the sound quality of your room, too. Here's why you should buy our star panels and here are problems with some other star ceiling products.

What are epiXsky fiber optic star ceiling tiles?

epiXsky fiber optic star ceiling tiles are modular star panel systems that create a realistic starry night sky effect. They also provide acoustical value to your space. Our EPIX STAR PANELS are state of the art modular star panel systems that create the most realistic night sky effects while providing acoustical value to your space.

What are ePIX star panels?

Our EPIX STAR PANELS are state of the art modular star panel systems that create the most realistic night sky effects while providing acoustical value to your space.

What's new with our star ceiling panels?

We're excited to announce the addition of RGBW LED technology to our star ceiling panels. In addition to the natural white stars, you can now have multi-colored stars with our Bluetooth controller. Set the stars to a specific color, to fade from color to color and adjust the speed and intensity of the fade.

Are star ceiling panels energy efficient?

Energy-Efficient and Durable: Our panels utilize energy-efficient LED technology, ensuring long-lasting performance while keeping your energy bills in check. With their robust construction, our star ceiling panels are built to stand the test of time.

What sizes do acoustic fabric star panels come in?

Acoustical Fabric Star Panels are 1" thick and come in standard sizes of 2'x2', 2'x4', 3'x5', 4'x4' and 4'x8'. (custom sizes available) We also offer our 2'x2' and 2'x4' ALL Star™ Drop-In Ceiling Tiles (see spec) that can be used in any existing grid system. • Realistic Star effects. TWILIGHT™, TWILIGHT PRISM™, TWILIGHT STARDUST™ Modes
