Starting Photovoltaic Panels

Overview

Of course, there's much more to solar installation than slapping up panels: there's general contracting, roofing, metal fabrication, sales, repair and maintenance, consultation, landscape design, and so much more. The best place to start a new solar business is between the cracks of large, over-saturated markets. Find.

You've nailed down your niche, identified solar certifications and licenses, and are ready to make the jump. Let's take a dive into how to start a solar.

There are many barriers when it comes to getting a solar business off the ground. Here are three common ones that can be easily solved with the right solar software.

How do you turn on your solar panels?

Step 1: Find your breaker box and turn on the solar breaker. Electrical panels or breaker boxes are typically found in utility spaces, such as a basement, garage, utility closet, or laundry room. Step 2: Turn on your AC Disconnect . Step 3: Turn on your solar inverter (a.k.a. combiner box). Step 4: Connecting the system to your home's wifi. .

How do you turn on your solar panels?

Step 1: Find your breaker box and turn on the solar breaker. Electrical panels or breaker boxes are typically found in utility spaces, such as a basement, garage, utility closet, or laundry room.
