Colombia's UPME awards 45-MW BESS project to Canadian Solar

Colombia's national mining and energy planning unit UPME last week finalised the tender process for the full delivery of a 45-MW battery energy storage system (BESS), awarding the project to the Colombian affiliate of Canadian Solar Inc (NASDAQ:CSIQ).

Colombia's first solar energy storage system operational

1 ??· Arizona's largest energy storage project closes \$513 million in financing In the USA, the 1,200 MWh Papago Storage project will dispatch enough power to serve 244,000 homes for four hours a day with the e-Storage SolBank high-cycle lithium-ferro-phosphate battery energy storage solution. Recurrent Energy, a subsidiary of Canadian Solar Inc

Energy Storage , Park Group

Renewable energy is limited by its intermittency, as its supply may fluctuate based on weather and location. Innovative energy storage technologies are required to decarbonize the electrical grid with stability. Both batteries and dense energy carriers have attracted vast research efforts as options for large-scale energy storage.

Celsia to launch Colombia's 1st BESS-solar combo

The BESS is housed in a 20-foot container weighing 28 tonnes. Each container holds more than 120 battery packs. The project represents the first time a non-conventional renewable energy plant is combined with storage in Colombia, according to the utility. The 9.9-MW Celsia Solar Palmira 2 plant is the company's 20th solar farm in Colombia.
