Street stall solar light with bracket

Overview

How many Watts Does a solar street light have?

This integrated solar street light includes a choice of pole heights and is available in three LED power options. Choose from 60 Watt, 80 Watt, or 100 Watt. Illuminate a large area without the hassle and cost of running electricity. Sold with necessary components.

What is a solar street light & parking lot?

Solar Lighting International's All-In-One solar street and parking lot and street light provides multiple programming options. Standard features are a standard dusk-to-dawn solar lighting option without dimming, optional adjustable timed control mode, and motion-activated human body sensor mode via our dual sensor technology.

How much weight can a solar light mounting bracket hold?

Install light poles with a minimum size of 1.5 inches and a maximum size of 3.5 inches. Please note that the thickness is 0.5mm. The solar mounting bracket can hold up to 150 pounds. The solar light mounting bracket is used in outdoor lighting, we do not recommend you install other products more than 150 pounds. DURABLE MATERIAL AND IS TO INSTALL.

How long does a solar street light last?

This provides automatic illumination at dusk for up to 6 hours at 100%, 70%, or 50% output, then off, except upon motion detection until dawn at 100%, 70%, or 50% output. This all in one solar street light fixture is supplied with adjustable mounting collar allowing for angle of the light fixture to be changed during installation.

How does a solar powered area light fixture work?

A motion sensor is installed on the underside of the light which can be used depending on the lighting mode selected. Lighting mode can be changed with

the included remote control. This solar powered area light fixture offers three different modes which can be selected by the installer or end-user with the supplied remote control.

What are the standard features of a solar light?

Standard features are a standard dusk-to-dawn solar lighting option without dimming, optional adjustable timed control mode, and motion-activated human body sensor mode via our dual sensor technology. The time control mode includes an all-night sensor mode and a morning mode.
