SunDrive is a solar technology start-up based in South Sydney, Australia. We're creating unique solutions to reduce the cost of high-efficiency solar cells, whilst enhancing their performance and sustainability by utilising more abundant ...

Solar cell innovator Sundrive restructures for future ...

Sydney-based Australian copper-plated solar cells innovator Sundrive Solar, has announced a restructure of the company, which it explains as a necessary precursor to the next phase of commercialisation.. A number of ...

SunDrive Solar

Today the Prime Minister The Hon. Anthony

Albanese MP and Minister for Climate Change and Energy, The Hon. Chris Bowen MP, officially opened SunDrive's solar manufacturing pilot production and commercialisation facility in Kurnell, NSW, today. For the first time in over a decade Australia has produced a mass-manufactured solar cell.

SunDrive Solar , Australian Solar Technology , Sydney

SunDrive is a solar technology company based in South Sydney, Australia. We're creating unique solutions to reduce the cost of high-efficiency solar cells, whilst enhancing their performance and sustainability by utilising more abundant materials.

SunDrive Solar, Trina Solar to jointly make solar panels in Australia

Australia's SunDrive Solar will join forces with Chinese PV manufacturer Trina Solar to develop "cutting-edge" manufacturing facilities and bring Australian-made solar panels to market at scale.

Budget 2024: Meet SunDrive, the Australian record-breaking solar ...

The government allocated \$1.5 billion to its Solar Sunshot grants program and "battery breakthroughs" under Future Made in Australia, and SunDrive is likely to apply for funds. Another \$15

SunDrive Solar Startup Beats China's Giant ...

SunDrive Solar, the company he co-founded in 2015 based on this research, proved this week that it has produced one of the most efficient solar cells of all time, according to a leading independent testing laboratory. And ...

Solar Technology Start-Up , Sydney

SunDrive is a solar technology start-up based in South Sydney, Australia. We're creating unique solutions to reduce the cost of high-efficiency solar cells, whilst enhancing their performance and sustainability by utilising more abundant materials.

Life at SunDrive , SunDrive Solar , Solar Technology Start-Up

At SunDrive, we believe that your potential should be maximised, regardless of your experience or qualifications. We are a team of doers and are purpose driven. With this in mind, SunDrive is open to anyone that believes they can contribute to our mission. Drive, character and ability is the order in which we value our team.

Product Model
 HJ-ESS-215A(100KW/215KWH)
 HJ-ESS-115A(50KW 115KWH)

Dimensions
 1600*1280*2200mm
 1600*1200*2000mm

Rated Battery Capacity
 215KWH/115KWH

Battery Cooling Method
 Air Cooled/Liquid Cooled

Sundrive Company Profile 2024: Valuation, Funding & Investors

Sundrive General Information Description. Manufacturer of material-abundant solar cells intended to replace the use of silver in the cell manufacturing process. The company's solar cells aim to reduce the cost of high-efficiency solar cells, whilst enhancing their performance and sustainability through the usage of abundant materials such as copper, enabling the energy industry to carry ...

Homegrown solar sector strides forward with SunDrive's proof of ...

Sydney-headquartered solar technology company SunDrive Solar has achieved a copper plating production yield of more than 99% at its commercial pilot facility in Sydney, turning the cells into modules.

Solar Technology Start-Up , Sydney

SunDrive is a solar technology start-up based in South Sydney, Australia. We're creating unique solutions to reduce the cost of high-efficiency solar cells, whilst enhancing their performance and sustainability by utilising more abundant ...

SunDrive

SunDrive is an Australia-based company that creates solutions to reduce the cost of high-efficiency solar cells, whilst enhancing their performance and sustainability by utilizing more abundant materials. The Company is working to develop ultra-efficient passivated contact solar technology which is free of silver and is mainly focused on copper solar cells.

Homegrown solar sector strides forward with SunDrive's proof of ...

Sydney-headquartered solar technology company SunDrive Solar has achieved a copper plating production yield of more than 99% at its commercial pilot facility in Sydney, turning the cells into modules. SunDrive has developed a cell metallisation technology that uses copper, which is approximately 100x cheaper and 1,000x more abundant than

SunDrive closes funding round to help commercialise solar cell

The technology, which uses copper instead of silver, managed to reach a conversion efficiency of 26.41% last month. Image: Pixabay . Australian solar technology start-up SunDrive has secured A\$21

Powering the Future: Capral and SunDrive Partner for a ...

Since its inception in 2015, SunDrive Solar has been at the forefront of solar cell innovation, developing advanced technologies to improve

solar module efficiency and sustainability. With a vision to develop and advance Australia's solar manufacturing capabilities, SunDrive aims to foster opportunities for local solar supply chain
