Tencent Photovoltaic Panel Headquarters

Overview

Where will Tencent's new headquarters be located?

To accommodate their meteoric growth, Chinese tech giant Tencent began plans for its new headquarters in Qianhai Bay almost immediately after completion of their current Shenzhen headquarters, the Tencent Seafront Towers.

Where is MVRDV preparing for the next Tencent headquarters?

MVRDV has just released images of the firm's competition entry for the next Tencent headquarters campus, located in Qianhai Bay, Shenzhen.

Is Tencent building a new campus in Shenzhen?

Internet and technology company Tencent is developing a massive new campus in Shenzhen, which will include a sculptural headquarters complex designed by MAD Architects. Spanning over eighty hectares with a total floor area of nearly two million square meters, the overall campus will be a benchmark for sustainable and accessible workspace design.

Where is Tencent HQ located?

Located on a 133-hectare site in a prominent location in Qianhai Bay, Shenzhen, Tencent's brief called for what is nothing short of an entire urban district including offices, homes for Tencent employees, commercial units, public amenities, schools, and a conference centre.

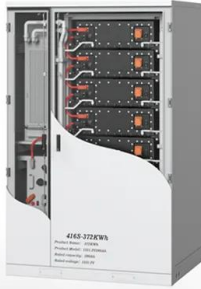

What will Tencent's Shenzhen headquarters look like in 2025?

Drawing on MAD Architects' expertise in tackling complex design challenges and their future-focused approach, Tencent's Shenzhen headquarters hopes to create a vibrant and collaborative campus environment. Tencent Shenzhen Headquarter Lot 04 East is currently under construction and is expected to be completed by 2025.

Who designed Tencent's new headquarters in Shenzhen?

MAD Architects unveils design for Tencent's new headquarters in Shenzhen
The southernmost building of the Tencent Headquarters is designed by MAD Architects to foster collaboration and dialogue. It will accommodate a diverse program of events, including product launches, conferences, and collaborative activities.
