TGC Renewables secures planning for 8MW park

Renewable energy project developer TGC Renewables has secured planning approval for an 8MW solar park to be built in the southwest. The project, which is to be supported under the Renewable Obligation Certificate (ROC) mechanism, will be installed over five interconnected fields on a farm site near South Brent in South Devon. In total more than

TGC Renewables breaks ground on 3.6-MW solar farm in UK

(SeeNews) - May 29, 2012 - UK developer TGC Renewables today said it had started construction of a 3.6-MW solar system in the county of Devon, southwest England. The project, which will feature 14,700 photovoltaic (PV) panels, will supply electricity to the national grid and provide the farm where it is located with a rental income over the

TGC Renewables Develops UK's Largest Solar Farm

TGC Renewables has secured planning approval for the largest UK solar project in the UK to date. As solar projects become more ambitious, and are able to be supported under the Renewable Obligation Certificate (ROC) mechanism, TGC Renewables is able to work with landowners keen to diversify their incomes and provide a regular supply of clean electricity to ...
