

European Solar and Energy Storage Solutions

The Gambia alltop solar generator

Overview

Will a new solar plant increase energy demand in the Gambia?

Energy demand in The Gambia has increased by 5.5% per year in recent years and today's connection of the new 23 MWp solar plant to the national energy grid will significantly increase Gambia's current generation capacity of 98 MW and enable electrification of rural areas. A strong commitment.

Why should the Gambia invest in solar energy?

To match the rising demand and to provide sustainable and accessible energy to all Gambians, the potential for solar energy investment is immense in The Gambia. The government of The Gambia seeks to increase RE's contribution to 40% from 2% presently in the coming years.

Is Gambia ready for a new era of renewables?

Gambia: strong international support for a new era of renewables with inauguration of historic 23 MWp solar plant A significant strategic project with strong substantial economic and social impacts, the recently inaugurated solar photovoltaic plant in Jambur is poised to supply electricity to approximately 18,500 households.

Why is NAWEC launching a solar plant in the Gambia?

This marks the first time in the Gambia's history where a utility scale solar plant of 23 Megawatts Solar PV capacity and 8-Megawatt hours battery storage is being commissioned. This solar plant allows NAWEC to finally shift away from expensive heavy fuel oil-based generation which is costly and harmful to the environment.

How does a large scale solar PV project benefit the Gambia?

The project contributes to gainful employment creation in The Gambia with 1,250 direct jobs created from the construction phase to operation and maintenance. To ensure sustainability, a three-year operations and

maintenance contract (O&M) has been signed as large scale solar PV is entirely new to the sector.

Does the European Investment Bank support a new solar plan in Gambia?

Mr. Ambroise Fayolle, Vice-President at the European Investment Bank (EIB) “I am delighted that the European Investment Bank is supporting this new solar plan with such economic and social impact for populations in Gambia, particularly in rural areas.

The Gambia alltop solar generator

Gambia: strong international support for a new era of ...

This project component consists in the construction of a new 23 MWp solar park tied with 8MWh battery storage and aims to revolutionize power generation in the Gambia by serving as a direct complement to current ...

Solar Energy Case Study

Unique Energy, in a project funded by the United States Agency of International Development, recently developed the first mini-grid solar farm in the Gambia. Unique Energy has worked for GIEPA for several years and highlights their success work together:

50KW modular power converter

- Flexible Configuration**
 - Modular Design, Expanding as Required
 - SmartLight, Wind Mounted
 - Installed in Parallel for Expansion
- Powerful Function**
 - Support PV+ESS
 - Grid Support, Equipped with DVC Technology
 - On-Grid and Off-Grid Operation
- Reliable Protection**
 - Outdoor IP65 Design
 - Sufficient Protection Functions Equipped
