What is Tongwei solar?

Tongwei Solar is the world's largest manufacturer of crystalline silicon cells, with four bases in Hefei, Chengdu, Meishan and Jintang. At present, the quality of Tongwei's solar cells are first class, with technical indicators reaching the top level in the world.

When did Tongwei start manufacturing shingled modules?

The M3 Phase III project was put into operation in 2021, and the 210-series large-sized module was produced smoothly, marking the entry of the 6.0 era of modules. Tongwei entered the module business in 2013. In 2020, the G12 shingled module of 1.2GW was officially put into production, achieving a single module power output of up to 660W.

Why is Tongwei accelerating development and expanding module business?

To meet the energy needs of the global clients. Tongwei accelerated developing and expanding module business in the second half of 2022, with years of accumulated experience in technology and market, a competitive scaled half-cut module business system has been established by collaborating with the advantages of high-purity silicon.

When did Tongwei start LLS & modules business?

LLS and modules business in 2013. Tongwei established the high-efficiency module R&D Department and started researching in relevant technical regions in 2016. After more than 10 years of continuous investment in R&D, Tongwei has formed a matrix of product portfolios that covers differentiated markets.
