

**European Solar and Energy Storage Solutions**

# **Trina Photovoltaic Panel Scan Code**

## Overview

---

Are Trina Solar panels ul 61730 certified?

TUV Rheinland IEC 61730 certification assures Trina Solar panels are tested for safety against electrical shock, fire and other potential hazards. UL 61730 certification covers flat-plate photovoltaic panels and modules that comply with the National Electric Code, National Fire Prevention Association and Model Building Codes.

Do Trina Solar PV modules have bypass diodes?

Trina Solar PV modules are equipped with bypass diodes in the junction box to minimize module heating and current losses. When using scaffolding, make sure that the scaffolding is in a stable position or with anti-dumping measures, and that the installer should wear a safety belt in accordance with local building codes.

Can Trina Solar change the user manual?

Trina Solar reserves the rights to change this User Manual without prior notice. Failure of the customer to follow the requirements outlined in this Manual during the installation of the module will result in the invalidity of product's limited warranty.

Are Trina Solar solar modules corrosive?

Salt spray corrosion tests conducted in accordance with IEC 61701 have shown that Trina Solar's PV modules can be installed near offshore or in the corrosive environment. However, the modules shall not be immersed in water or in a permanently wet environment (e.g., fountains, spindrift, etc.).

Can a loose connection damage a Trina Solar PV module?

Loose connections will result in damage to the array. This manual covers the requirements for the cleaning procedures of Trina Solar PV modules. Professional installers should read these guidelines carefully and strictly follow

these instructions.

What temperature should Trina Solar modules be installed in?

Trina Solar recommends that the module should be installed in a working environment with an ambient temperature of  $-20^{\circ}\text{C}$  to  $50^{\circ}\text{C}$ , but not exceed the temperature limit of  $-40^{\circ}\text{C}$  to  $85^{\circ}\text{C}$ . The modules shall be installed in shadow-free areas throughout the year. Do not install the PV modules at a place where water damage may occur.
