Trina photovoltaic panel monocrystalline level

Overview

What is Trina Solar?

Based on the aim of improving the system efficiency and reducing the balance-of-system costs, Trina Solar's research and development team has introduced an innovative design of low-voltage and higher module string power output. Typically, Trina can interconnect 33 Vertex modules into a string.

Does Trina have a top-of-the-line n-type solar cell?

And not only has Trina already developed a top-of-the-line N-Type solar cell, but it has also proven that this is the path forward by setting a new world record for efficiency. As Trina unveiled its new 210×210 mm monocrystalline N-Type i-TOPCon solar cell, it also announced that it set a new world record for efficiency levels of 25.5%.

What is the irradiance of Trina Solar?

NOCT: Irradiance at 800W/m², Ambient Temperature 20°C, Wind Speed 1m/s.
*Please refer to regional datasheet for specified connector. CAUTION: READ SAFETY AND INSTALLATION INSTRUCTIONS BEFORE USING THE PRODUCT.

How many vertex modules can Trina interconnect?

Typically, Trina can interconnect 33 Vertex modules into a string. Compared with other reference module, a single module string can achieve up to a 41% power increase, 15% racking decrease, 17% foundation decrease and 35% combiner box decrease, indicating an innovative technological breakthrough and ushering in a new era of 600W+.

Does Trina have a sustainable future?

Innovation in solar technology has always been at the forefront of Trina's 25-year push toward a more sustainable future, and remaining innovative in

this industry requires constant advancement.

How trinapro 210mm vertex module & nclave brand tracker will improve performance?

The TrinaPro solution integrated Vertex module and customized Nclave brand tracker, which could give full play to the Vertex module and ensure the safety and reliability of the system. As for the special cell structure of 210mm Vertex, TrinaPro R&D team will develop an adaptive tracking Algorithm, which will bring an extra performance gain of 1-2%.
