Turks and Caicos Islands solar panel prices in

Overview

In 1987, the Provo Power Company (P.P.C. Limited) acquired a 50-year exclusive license to generate and distribute electricity for Providenciales, North Caicos, and Middle Caicos, which expires in 2037. Separately, Atlantic Equipment and Power (AEP) acquired an exclusive license for South Caicos which is due to expire in.

There are two approaches for persons wishing to install a solar array at their residence or business: .

Photovoltaic (solar) panels and some support equipment carry a 0% duty, unlike the normal 30% on most items imported into the islands. However.

The payback period will likely be between 8-12 years, although this depends on a number of factors. Due to decreasing global costs of solar components, and a lack of a Turks and Caicos.

Where can solar power be installed in Turks & Caicos?

Solar-derived power is increasing in popularity, with many private installations visible throughout the country, especially on new Turks and Caicos villa projects. Several local companies specialize in both supply and installation of alternative energy systems. The FortisTCI electricity plant on Providenciales.

Can Turks and Caicos use solar power?

The Turks and Caicos Government and Fortis TCI are currently reviewing the electricity legislation to enable Turks and Caicos residents to use the solar power they produce to offset their power consumption (rather than sell everything back to Fortis at their pre-agreed rate).

What is the Electricity Standard in Turks and Caicos?

The electricity standard in the Turks and Caicos is 120v, 60Hz and U.S. style power plugs. Solar-derived power is increasing in popularity, with many private installations visible throughout the country, especially on new Turks and Caicos villa projects.

Who produces electricity in Turks & Caicos?

In the Turks and Caicos , all public electricity generation is run by Fortis TCI, a vertically integrated company that provides both power generation and distribution.

Who owns the electricity in South Caicos?

Separately, Atlantic Equipment and Power (AEP) acquired an exclusive license for South Caicos which is due to expire in 2036. For the Turks Islands of Grand Turk and Salt Cay, electricity generation was run by Turks and Caicos Utilities (TCU), a government-owned entity.

What solar products does Fortis TCI offer?

We specialize in the following solar products: solar hot water, solar pool heating, solar pool pumps and solar photovoltaic. Fortis TCI is the main power utility in the Turks and Caicos Islands. It is a privately owned company and services all of the inhabited islands within the Turks and Caicos Island chain.
