

European Solar and Energy Storage Solutions

U S Outlying Islands hv solar battery

Overview

This visionary partnership is set to transform the energy landscape of the US Virgin Islands through the deployment of cutting-edge Battery Energy Storage Solutions (BESS) across six strategically positioned solar parks. The implications are monumental, with massive cost savings and a resounding commitment to decarbonization.

This visionary partnership is set to transform the energy landscape of the US Virgin Islands through the deployment of cutting-edge Battery Energy Storage Solutions (BESS) across six strategically positioned solar parks. The implications are monumental, with massive cost savings and a resounding commitment to decarbonization.

Honeywell Process Solutions has announced plans to install about 124 MWh of its battery energy storage systems alongside 140 MW of solar at six sites to help the US Virgin Islands cover 30%.

HOUSTON, Dec. 5, 2023 /PRNewswire/ -- Honeywell today announced it will provide VIElectron, a CB Loranger Company, its first installment of battery energy storage solutions (BESS) to six solar parks strategically positioned across the U.S. Virgin Islands. When completed, the solar array and BESS will boost the islands' decarbonization efforts .

Honeywell Process Solutions announced it will provide Massachusetts-based renewable energy developer VIElectron with its first installment of battery energy storage systems (BESS) to accommodate six solar facilities across the U.S. Virgin Islands (St. Thomas, St. Croix, St. John).

Honeywell will provide VIElectron, a CB Loranger Company, battery energy storage solutions for six solar + storage projects across the U.S. Virgin Islands. When completed, the solar and storage portfolio will boost the islands' decarbonization efforts by fulfilling 30% of its energy consumption through renewable sources.

Sunsynk HV 61.44kWh Battery Pack

The Sunsynk High Voltage battery pack is designed with high integration, exceptional reliability and a long service life. Each battery module boasts a capacity of 5.12 kWh. The complete system supports 12 battery modules in series, so your total energy capacity can reach an impressive 61.44 kWh - perfect for any large scale installations.
