Board of Supervisors to discuss proposed 2,267-acre solar project

Amor Solar Project, LLC, is looking to build a solar facility and battery storage area on 2,267 acres of land -- roughly 1,700 of which would be used for panels, according to the group's lawyer

Small Islands, Big Challenges: Addressing Energy Needs With

...

Islands, particularly Small Island Developing States (SIDS), must upgrade their energy infrastructure to withstand higher temperatures, frequent natural disasters, and flooding. Aging power systems struggle to meet growing electricity demand, leading to recurrent outages

and load-shedding events, as seen in Sint Maarten, Guam, and Dominica.

Financial Benefits

Much of the funding is allocated to clean energy industries across the board, but solar energy is one of the biggest winners. This is the first sigh of relief the nation's solar industry let out after a rocky few years - the COVID-19 pandemic stalled installations and ongoing supply chain issues have derailed schedules and increased overall
