Energy Storage & Battery Industry Events

NAATBatt International is the trade association for advanced battery technology in North America. This Year's Meeting Theme is "Extending Range" NAATBatt 2025, as all NAATBatt programs, is designed to maximise ...

EQT to buy UK battery storage developer Statera

EQT to buy UK battery storage developer Statera. Founded in 2015, Statera has more than 1GW of flexible generation and energy storage projects and a pipeline of 16GW. November 7, 2023. Share Copy Link; Share ...

EDF Renewables UK to launch 300MW of battery storage projects

EDF Renewables UK's current projects contribute to an existing portfolio of more than 150MW of battery energy storage systems in operation across Oxfordshire, Kent and the West Midlands. With plans to deliver 2GW of transmission-connected battery storage, EDF Renewables UK has more than 400MW consented and a further 313MW in construction.

Northvolt , Northvolt

Recycling No battery lives forever. But when they contain recyclable materials, they're always valuable. By recovering used batteries and recycling them into raw materials for new batteries, we're lowering the demand for fresh material and moving closer to closing the loop on batteries.

York Solar Farm

The market for battery energy storage is estimated to grow to \$10.84bn in 2026. The fall in battery technology prices and the increasing need for grid stability are just two reasons GlobalData have predicted for this growth, with the integration of renewable power holding significant sway over the power market.

KX Power - A leading developer and asset manager of utility scale

Utility scale battery storage is playing a critical role in enabling renewable capacity to connect to the grid. KX Power's deep expertise and demonstrable track record in successfully developing, constructing, operating and optimising energy storage projects makes us one

of the leading developers and partners in the UK energy transition.

TagEnergy energises UK's largest transmission-connected BESS

Renewable energy developer TagEnergy has energised what it claims is the UK's largest transmission-connected battery energy storage system (BESS): the 100MW/200MWh Lakeside project in North Yorkshire.

Largest UK battery energy storage facility comes ...

Battery storage facilities for renewable energy in the UK During 2022, the percentage of renewable generation in the UK energy mix rose to 41.4% compared to 39.6% in the year prior. The UK government has set a ...

A 104MWh investment: inside Conrad and GE's ...

The market for battery energy storage is estimated to grow to \$10.84bn in 2026. The fall

in battery technology prices and the increasing need for grid stability are just two reasons GlobalData have predicted for this ...

Cero, Enso reach financial close on UK battery storage project

Solar developer Cero Generation and its partner Enso Energy have achieved financial close for a battery energy storage project in the UK.. To be co-located with the 49.9MW Larks Green solar project in south Gloucestershire, the battery energy storage system will have 49.5MW/99MWh of capacity.

Top 10 energy storage manufacturers in the world

LG Energy Solution, based in South Korea and spun off from LG Chem, is a leading global manufacturer of lithium-ion batteries. The company designs and produces batteries for electric vehicles, IT applications, and energy storage systems. With 30 years of experience and over 25,000 patents, LG Energy Solution is at the forefront of battery

A to Z of key players driving UK storage deployment in 2024

Anesco has connected storage capacity totalling

150MW across 33 sites, while in December 2022, it was announced that the company had entered into an agreement to optimise 15MW of UK operational battery storage capacity for Gresham House, one of the biggest players in the UK storage market.

EDF West Burton Battery Energy Storage System, UK

The lithium-ion battery (49 MW-24.5 MWh) is made up of 20 industrial containers, each with 2.45 MW of battery capacity provided by Nidec. This is the largest battery storage project in Europe. The EMS installed by EDF Store & Forecast controls the operation of the storage project. About EDF Energy Renewables

Kona Energy

Kona Energy is one of the UK's leading clean energy development companies. The company is focused upon developing grid-scale battery energy storage projects. These flexible assets are key to balancing energy supply and demand and increasing the utilisation of renewable power on the electricity system.

Lakeside facility connects to grid and becomes UK's largest

National Grid plugs TagEnergy's 100MW battery project in at its Drax substation. Following energisation, the facility in North Yorkshire is the UK's largest transmission connected battery energy storage system (BESS). The facility is

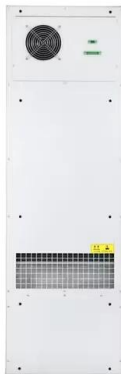

supporting Britain's clean energy transition, and helping to ensure secure operation of the electricity

UK Nexeon attracts Korean investors to scale up battery materials ...

January 27 (SeeNews) - British start-up Nexeon Ltd has received USD 80 million (EUR 70.9m) to ramp up the production of materials for lithium-ion batteries from a consortium including South

...

Green Investment Group acquires UK battery storage portfolio

Green Investment Group acquires UK battery storage portfolio. The seven projects that are part of the initial 187MWh portfolio are located in Scotland and South East England. The region has provided attractive investments in a diverse set of companies. Companies who tend to major themes such Digital Media, Cloud, Artificial Intelligence, E
