Unit photovoltaic panel scam case

Overview

Are rooftop solar panels a scam?

While rooftop solar panels are becoming increasingly ubiquitous in homes throughout the United States, the industry also has a more sinister side: a seemingly widespread problem of fraudulent business practices that has cast a shadow over many solar panel companies.

Is solar panel fraud a global issue?

And while the aforementioned data focuses on the United States, solar panel fraud is a global issue. It is especially prevalent in Canada, where in the city of Calgary alone, the amount of applications for rooftop solar panels "has increased by nearly 600% since 2020," said the CBC.

Do solar companies have a Consumer Protection Bureau?

Some states also have consumer protection bureaus where consumers can file complaints. While the advisories are an attempt to educate consumers, previous government efforts to regulate solar companies have fallen short.
