Solar With Batteries vs. UPS Systems , A Better Solution

Solar batteries, when paired with solar panels, present an innovative alternative to traditional UPS systems. These systems store energy generated from solar panels, which can then be used to power IT equipment during outages.

Replacing APC UPS lead acid batteries with LiFePO : r/homelab

That said the biggest issue I have run into while researching this is you'll never get a full charge, in my case my ups uses 2 12v lead acid batteries and full floating charge is around 25v so around 12.5v per battery the same full charge voltage for a lithium cell is usually much higher and the advertised 12v is usually the nominal voltage.

Mali MR-UF1200 / MR-UF1200A-MARSRIVA
