## Overview

---

Babcock International Group plc is a British aerospace, defence and nuclear engineering services company based in , England. It specialises in managing complex assets and infrastructure. Although the company has civil contracts, its main business is with public bodies, particularly the United Kingdom's and . The company has four operati.

Who is Babcock International?

Babcock International traces its history back to the 19th century and the American heavy industrial manufacturers Babcock & Wilcox Company, which had been founded in 1867 by partners Stephen Wilcox and George Babcock to manufacture and market Wilcox's patented water-tube boiler.

Where is Babcock based?

The company has four operating sectors, with overseas operations based in Africa, North America, South America, Europe and Australia. Babcock is listed on the London Stock Exchange, and is a constituent of the FTSE 250 Index.

What does Babcock do?

And Babcock is built for that task. Now more than ever, what we do matters. Creating a safe and secure world, together. Babcock is a leading provider of critical, complex engineering services which support national defence, save lives and protect communities.

Is Babcock going out of business?

During February 2020, it was reported that the company was considering exiting the off-shore helicopter sector amid intense competition; Babcock had already reduced its Sikorsky S-92 and Eurocopter EC225 Super Puma fleets from 15 to seven helicopters and 13 to one helicopters respectively.

What happened to Babcock & BAE Systems?

In October 2014, both Babcock and BAE Systems won contracts from the Ministry of Defence worth a total of £3.2 billion to maintain British warships,

submarines and naval bases for the following five years. In December 2014, the Ministry of Defence alienated the non-aerospace assets of the Defence Support Group to Babcock.

Who is Babcock Dounreay Partnership (BDP)?

In April 2014, Babcock Dounreay Partnership (BDP), a consortium of Babcock International Group PLC (50%), CH2M Hill (30%) and URS (20%) was selected as preferred bidder and eventually awarded a £1.6bn contract by the Nuclear Decommissioning Authority for the management and decommissioning of the Dounreay nuclear site in Scotland.

### Commercial Solar Installation Project Case Studies

With over 100+ projects in its construction and installation portfolio, B& W continues to find new ways to bring clean power production to our customers. Some of these projects are highlighted to show the breadth and width of our custom solutions. Since every project is custom, contact us to collaborate as together we achieve our net-zero ambition.

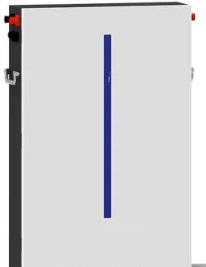

### Clean Power Production Technologies » Babcock & Wilcox

Babcock & Wilcox exists to CO 2 llaborate with the singular focus to help customers create cleaner energy. We do this through proven decarbonization technologies, through our advanced emissions control equipment, and through engineering more efficient ways to harness the energy in a wide range of fuels.

- LiFePO<sub>4</sub> Battery, safety**
- Wide temperature: -20~55°C**
- Modular design, easy to expand**
- Wall-Mounted&Floor-Mounted**
- Intelligent BMS**
- Cycle Life:> 6000**
- Warranty:10 years**

### Careers at B& W » Babcock & Wilcox

> home > renewable > biomass-to-energy > Biomass to Energy Overview. What is Biomass-to-Energy Production? Biomass is a carbon-neutral fuel source which B& W can harness into energy by using a wide range of reliable and proven technologies. View Web Page.

## Steam Generators

With more than 300,000 MW of generating capacity in approximately 60 countries, B& W's heritage is built on steam generation. We also have sold and installed more than 5000 industrial steam boilers for a wide range of process applications.

## B& W Chanute

Babcock & Wilcox supplemented its more than 155 years of experience in steam generation by adding the unique competencies of Optimus Industries, together with its manufacturing facility in Chanute, Kansas. The design and manufacture of custom-engineered technologies complements and expands B& W's product offerings as we continue our commitment in delivering a wide ...

## Babcock contracts Veolia to help dismantle UK nuclear sub

Babcock International Group has awarded the recycling contract to KDC Veolia Decommissioning Services UK to assist with fully dismantling the decommissioned nuclear-powered submarine, the former HMS Swiftsure.. This collaboration marks a milestone in the group's partnership with the Defence Nuclear Enterprise (DNE) and is part of the UK's ...

## BrightLoop(TM) Low-Carbon Hydrogen Production

The BrightLoop technology is a novel chemical looping process that is based on the oxidation and reduction of an oxygen carrier particle. The

feedstock reacts with oxygen-carrier particles in a fuel reactor, forming reaction products which are predominantly CO<sub>2</sub>, while reducing the oxygen-carrier particles.. The reduced oxygen-carrier particles then move to a hydrogen reactor where ...

### Emissions Control Overview

Flue gas pre-treatment. For post-combustion carbon capture applications, pre-treatment of the flue gas is vital for the operation and economics of the process to result in optimum effectiveness of the technology. B& W's proven and well-established emissions control solutions can be integrated into your carbon capture system for optimized flue gas conditions.

### Babcock International

Babcock proud to a play key role in Spanish S-80 first in class submarine rollout. Babcock International, the Aerospace, Defence and Security Company, has supported the delivery of a significant milestone for the Armada Española (Spanish Navy), with its customer Navantia unveiling the first in class S-80 submarine in Cartagena Spain.

## Combustion & Fuel Systems » Babcock & Wilcox

From our original E/EL ball-and-race type pulverizers for lower capacity applications, to the latest B& W Roll Wheel(TM) pulverizer capable of grinding up to 230,000 pounds of coal per hour (104,300 kg/hr), we set the standard for high availability, reliability and low maintenance.

## Multiclone® Dust and Particulate Collectors

B& W supports existing installations of the Multiclone® dust collector system with service, component rebuilds and replacement parts. Originally provided by Joy/Western Precipitation, this multi-cyclone device is a

simple and efficient multiple tube cyclonic collector.

### **Custom Boiler Parts Manufacturing and Engineered Fabrication » Babcock ...**

Custom industrial manufacturing and engineered fabrication solutions are available from our B& W Chanute manufacturing facility in Kansas. With nearly 200,000 square feet of high bay manufacturing capacity, this facility has served a multitude of industrial operations in the petrochemical, power generation and process sectors worldwide with a diverse range of ...
