Vanuatu solar solutions in uae

Overview

How can Vanuatu benefit from solar power?

With this project, 17,000 households throughout Vanuatu will be supported to access non grid, renewable electricity through solar. With low population densities and large distances between communities, a key challenge for the project has been providing access to electricity in a way that is cost effective and efficient.

Does Vanuatu have a Power Cooperative?

Throughout the first year of operation, the local energy service company will provide free maintenance and train members of the local communities to operate and maintain the power station. “This is the first-ever power cooperative for Vanuatu’s last mile communities.

Will a new solar micro-grid change Vanuatu's lives?

(Photo: Ian Iercet) On the remote island of Malekula, the second-largest island in Vanuatu, a new solar micro-grid is changing the lives of over 2,800 people - boosting local development while contributing to Vanuatu’s sector specific target of transitioning to close to 100 percent renewable energy for electricity by 2030.
