

European Solar and Energy Storage Solutions

Vera solar Slovenia

Overview

What is verasol?

Select a product type below to view data. VeraSol is the off-grid solar industry's trusted source for credible data on solar energy kits and appliances. We contribute to a healthy, sustainable market by connecting buyers with sellers of durable, good-quality products.

What is a verasol product database?

VeraSol is a leading independent source for trusted product performance data on certified solar energy kits and off-grid appliances. Our product database allows users to quickly identify and compare hundreds of high-quality off-grid solar solutions on a single platform. Verified products are now listed here in VeraSol's product database.

Who manages verasol?

VeraSol is managed by CLASP, an expert in appliance energy performance and quality, in collaboration with the Schatz Energy Research Center at Cal Poly Humboldt.

What are the policies and resources of Verasol?

VeraSol maintains a set of policies describing what is expected of companies submitting products for certification and what they can expect from the VeraSol team (policies and resources).

Tientallen klanten kunnen fluiten naar hun geld na faillissement

Het faillissement van zusterbedrijven Vera Solar en Solar Oost laat tientallen klanten duizenden euro's lichter, maar zonder zonnepanelen achter. Gerelateerde dossiers: Dma B.V. (F.08/24/187)

Case Studies: Successful Off Grid Inverter Installations

1 ??· Nestled in the scenic mountains of Slovenia, this home was completely disconnected from the main grid. The remote location and the rugged terrain made it impractical and costly to connect to the national electricity network. Solution: The homeowners installed an advanced off-grid inverter system in their basement, paired with rooftop solar panels.
