Overview

Who is my solar energy Sri Lanka?

Thanks for submitting! MySolar Energy is an all-in-one full service energy provider in Sri Lanka. Our in-house team takes care of every part of your project. My Solar Energy Sri Lanka.

Who are the best solar power companies in Sri Lanka?

With more than 5 years of experience as a provider of solar power solutions in Sri Lanka, we are proud to say that Vivid Energy Solutions (Pvt) Ltd is one of the best companies in the import and installation of top-tier solar power systems. We specialize in importing and installing solar power systems and provide a variety of services.

Are residential solar systems a viable solution in Sri Lanka?

As energy costs continue to rise and concerns about environmental sustainability grow, many homeowners in Sri Lanka consider residential solar systems as a viable solution. A well-designed solar power system can significantly reduce electricity bills, contribute to environmental sustainability, and even provide a backup power source during outages.

How do solar panels work in Sri Lanka?

Solar panels convert sunlight into direct current (DC) electricity. The efficiency of these panels can vary, but in Sri Lanka, with its average solar irradiation of around 4.5 to 5.5 sun hours per day, solar panels can generate significant amounts of electricity. High-quality solar panels often use materials like P-type and N-type silicon cells.

Why should you choose a residential solar system in Sri Lanka?

Adopting a residential solar system in Sri Lanka can lead to substantial savings on electricity bills, enhance energy security, and contribute to environmental sustainability. Whether opting for an on-grid, off-grid, or hybrid

system, working with certified professionals is crucial to ensure a properly designed and installed system.

How much does a solar system cost in Sri Lanka?

Residential solar installations in Sri Lanka typically start at around 500,000 LKR to 750,000 LKR for basic setups. With a budget of 500,000 LKR, you can generally expect a solar system producing approximately 2 kW to 3 kW of power. If you have a budget of 750,000 LKR, the system size might range from about 3 kW to 5 kW.
