Should you buy a Topsolar solar panel kit?

With a 100-watt capacity, the Topsolar Solar Panel Kit isn't your best bet for serving the power needs of a large home. But it's a good choice for powering up RVs, boats, vans and smaller residences, or for experimenting with solar power to see what you do and don't like.

Are solar panels a good investment?

Solar panels can power your home entirely or supplement what you receive from your regional power grid. While purchasing solar panels requires an upfront investment, they can save you money in the long run and tap into a renewable power source that has little to no impact on the environment.

Does Panasonic still sell solar panels?

It is worth noting that Panasonic shuttered its internal solar panel manufacturing division in 2022 and will continue selling Panasonic-brand panels through a third-party manufacturer. It will continue to honor the warranties on panels for existing customers. According to a press release:
