Overview

How much will Hitachi Energy Invest in North America?

At Climate Week NYC, Hitachi Energy announced plans to invest an additional \$155 million USD to expand its manufacturing capacity in North America.

Where will Hitachi Energy Invest \$155m?

Credit: Hitachi Energy Ltd. Hitachi Energy plans to inject an additional \$155m into its North American manufacturing operations. The strategic move includes building a new distribution transformer factory in Reynosa, Mexico, and expanding existing facilities in South Boston, Virginia and Mount Pleasant, Pennsylvania.

What does Hitachi energy do for a living?

Hitachi Energy chief executive Andreas Schierenbeck stated: “Demand for electrical equipment, including transformers and switchgear, is surging globally, and significantly in North America, and one of our highest priorities is making sure that we are growing our capabilities to address our customer’s present and future needs.

Why is Hitachi investing \$25M in a South Boston transformer factory?

More than \$25m is being channelled into expanding the South Boston, Virginia transformer factory to boost the production of large distribution transformers, a move that will create 100 jobs. These developments are part of a broader investment strategy by Hitachi Energy to augment transformer capacity both regionally and globally.

Why did Hitachi Energy Invest in a transformer?

This investment aligns with Hitachi Energy's commitment to sustainability and reinforces its position as a leader in high-voltage eco-efficient solutions. Transformers as well as high-voltage switchgear and breakers play a key role across the power value chain, safeguarding and enabling efficient

transmission and distribution of electricity.

Where is Hitachi based?

Headquartered in Switzerland, we employ around 45,000 people in 90 countries and generate business volumes of around \$13 billion USD. Hitachi drives Social Innovation Business, creating a sustainable society through the use of data and technology.
