Why am I getting a WeChat server access failure error?

Problem: An error saying WeChat Server Access Failure (1,-501) occurs when signing up or signing in on WeChat on an Android Device. Pre-requisites:

Solution: Updating the Android System WebView application Click on Android System WebView Click Update if available. If that doesn't work or there are no updates, try updating your default browser.

Why does WeChat report a network unavailable message?

This was most evident with Wechat reporting a Network Unavailable message. The issue, in my case, was related to my VPN Apps trying to automatically connect to the Network and failing to do so. This kept switching the VPN toggle on and off.

Why is WeChat not running?

1. Check whether WeChat is running in your phone's "Settings" -> "App Management" -> "Running". If WeChat is not in the "Running" list, you must re-open it. If you find WeChat is not running all the time, check whether any installed security apps have blocked WeChat, or check whether WeChat is closed due to insufficient storage. 2.

Why is iPad Pro WeChat not working after iOS 16 update?

iPad Pro WeChat not working after iOS 16 update fix and this work around is off load the WeChat from setting. ~>Settings~>General~>ipad Storage~>Wechat~>Offload App~> (select)Offload App~>Reinstall App (after Offload App action had done) it work for me. I encountered the exact same issue. Restarted several times and cleared all cache. Not working.

What does the exclamation mark mean in my chats?

If an exclamation mark appears when you're sending a message, it means that the message didn't go through due to an unstable or unavailable network.

Please check your network settings and try again.

Is there a WeChat update available?

And there is not update available yet. Contact WeChat for your issues with their software. Brand new 13 pro max. Updated to ios16 and then moved over contents of 11 pro. When i start up WeChat, i get a black screen. That's it. Will try wechat support and report back.
