What are the new photovoltaic panel companies

Overview

In August 2022, Congress passed the Inflation Reduction Act, which introduced the Section 45X Advanced Manufacturing Production Tax Credit (45X MPTC) and expanded the Section 48C.

Due to the IRA and some forward-thinking companies, the future of American solar manufacturing is bright. As homeowners shop for solar, they are nearly as likely to be offered American-made.

The top five solar panel manufacturers in the U.S. are First Solar, Qcells, Silfab, Jinko Solar, and Mission Solar. These companies produce high-performance solar panels for residential, commercial, and utility-scale installations. Several other companies are planning to build large solar manufacturing plants in the United States in the coming .
