.

Can a building contractor install solar panels?

One of the advantages of solar energy is a reduced carbon footprint, but installing solar panels is a job for a specialist—an average building contractor typically isn't well versed in installing or repairing solar panels.

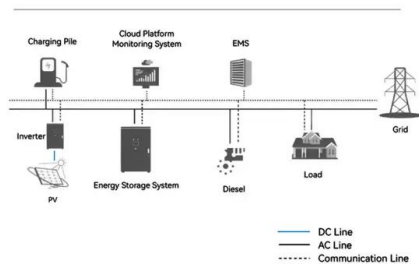

Are solar panels a good investment?

Yes, solar panels are typically a worthwhile investment both financially and ethically. Purchasing and installing a solar system will cost plenty upfront, but will eventually result in significant savings on your electric bill and benefits for our environment. The pros of going solar greatly outweigh the cons in most

circumstances.
